Dear Nike Hiring Team,

Learning isn't just about delivering content—from my experience, it's about creating a continuous cycle of collecting insights, analyzing data, and refining solutions so that programs actually change how people work. With a background in **HR, Organizational Development, and Program Management**, I have helped organizations design and implement data-informed strategies that strengthen both organizational growth and individual capability. I look forward to bringing a balanced blend of analytical and interpersonal strengths—using **curriculum design** across virtual and in-person formats, **facilitation** at scale, and **data-driven evaluation** of program effectiveness—to Nike as a **Senior, Global Sales, Learning & Development** team member.

As an HR Business Partner Assistant at **Vestas Wind Systems**, I supported the HRBP team in **piloting an Inclusive Leadership workshop for 12 senior leaders that was later scaled to 23 global locations**—seeing firsthand how a single well-designed program can be equipped to travel consistently across markets, which is the heart of global learning execution. I also **partnered with cross-functional stakeholders** and **optimized onboarding processes across 3 global locations**, learning how to align program delivery across geographies.

At **NextGen Healthcare**, I deepened my **strategic planning, data analysis, and advisory skills**. I initiated a manager-effectiveness project that transformed employee feedback into actionable insights, and **analyzed 2,000+ employee experiences** to identify capability gaps. My initiative and **data-driven recommendations** enabled the C-suite to prioritize essential organizational needs and develop targeted L&D strategies—so I assess learning needs and evaluate effectiveness with evidence, not guesswork.

In my current role as a **Program Enablement Manager** at **InGenius Prep**, I lead cross-functional collaboration across partners, vendors, and internal teams—**managing 20+ programs and 10+ vendors, designing 3 new educational programs** from needs assessments with **25+ global stakeholders, building guides and workflows for 70+ staff that cut onboarding time by 75%, and facilitating training webinars for 600+ participants to a 78% program enrollment rate**. Diagnosing the gap, designing the curriculum, facilitating delivery, and measuring the result is how I approach every learning problem.

My approach is grounded in my **MS in Applied Organizational Psychology (USC)**, which shaped how I think about people problems as systems: I **diagnose with data, collaborate cross-functionally on solutions, and track metrics to ensure real progress**. As an **analytical organizer with a growth mindset**, Nike's mission to equip a global sales organization to do its best work draws me in. I'd love to bring this methodology to your team.

Sincerely,

Jamie Cheng

Jamie (Yi-Chieh) Cheng
