Dear RxBenefits Hiring Team,

Talent development isn't just about running training—from my experience, it's about creating a continuous cycle of collecting insights, analyzing data, and refining solutions so that programs actually help people grow. With a background in **HR, Organizational Development, and Program Management**, I have helped organizations design and implement data-informed strategies that strengthen both organizational growth and individual capability. I look forward to bringing a balanced blend of analytical and interpersonal strengths—using **adult-learning-grounded design, facilitation of onboarding and development initiatives, and project management of multiple simultaneous programs**—to RxBenefits as a **Learning and Talent Development Specialist**.

As an HR Business Partner Assistant at **Vestas Wind Systems**, I enhanced operational efficiency by **identifying process gaps, streamlining workflows, and partnering with cross-functional stakeholders**. I supported the HRBP team in **piloting an Inclusive Leadership workshop for 12 senior leaders that was later scaled to 23 global locations**, and **optimized onboarding processes across 3 global locations**. Overseeing the integration of an acquired company during an **M&A project** further demonstrated my ability to manage organizational change and keep cross-functional teams aligned.

At **NextGen Healthcare**, I deepened my **strategic planning, data analysis, and advisory skills**. I initiated a manager-effectiveness project that transformed employee feedback into actionable insights, and **analyzed 2,000+ employee experiences** to surface what actually drives growth. My initiative and **data-driven recommendations** enabled the C-suite to prioritize essential organizational needs and develop targeted L&D strategies.

In my current role as a **Program Enablement Manager** at **InGenius Prep**, I lead cross-functional collaboration across partners, vendors, and internal teams—**managing 20+ programs and 10+ vendors, designing 3 new educational programs** from needs assessments with **25+ global stakeholders, building guides and workflows for 70+ staff that cut onboarding time by 75% in MS Office, Canva, and Adobe InDesign**, and **facilitating training webinars for 600+ participants to a 78% program enrollment rate**. Grounded in adult learning theory, I run needs assessments, translate ambiguous asks into structured programs, and apply continuous feedback loops to refine program positioning, delivery strategy, and operations.

My approach is grounded in my **MS in Applied Organizational Psychology (USC)**, which shaped how I think about people problems as systems: I **diagnose with data, collaborate cross-functionally on solutions, and track metrics to ensure real progress**. As an **analytical organizer with a growth mindset**, **RxBenefits's** focus on building the learning experiences its teams rely on draws me in. I'd love to bring this methodology to your team.

Sincerely,

Jamie Cheng
