Dear Xenium HR Hiring Team,

Employee experience isn't just about answering inquiries—from my experience, it's about creating a continuous cycle of collecting insights, analyzing data, and refining solutions so that every employee who reaches out feels genuinely supported. With a background in **HR, Organizational Development, and Program Management**, I have helped organizations design and implement data-informed strategies that strengthen both organizational growth and the employee experience. I look forward to bringing a balanced blend of analytical and interpersonal strengths—using a **customer-service mindset to resolve employee questions, strong organizational skills to manage a high volume of inquiries, and high attention to detail in data entry and documentation—to Xenium HR as an Employee Experience Representative.**

As an HR Business Partner Assistant at **Vestas Wind Systems**, I enhanced operational efficiency by **identifying process gaps, streamlining workflows, and partnering with cross-functional stakeholders.** Through stakeholder interviews, I clarified ambiguous job responsibilities and **optimized onboarding processes across 3 global locations**, improving both efficiency and the people experience. Overseeing the integration of an acquired company during an **M&A project** further demonstrated my ability to manage organizational change and keep cross-functional teams aligned.

At **NextGen Healthcare**, I deepened my **data analysis and advisory skills.** I initiated a manager-effectiveness project that transformed employee feedback into actionable insights, and **analyzed 2,000+ employee experiences** to surface what actually drives satisfaction. My initiative and **data-driven recommendations** enabled the C-suite to prioritize essential organizational needs and develop targeted people strategies.

In my current role as a **Program Enablement Manager** at **InGenius Prep**, I lead cross-functional collaboration across partners, vendors, and internal teams—**managing 20+ programs and 10+ vendors, building guides and workflows for 70+ staff that cut onboarding time by 75%, and facilitating training webinars for 600+ participants to a 78% program enrollment rate.** I run needs assessments with **25+ global stakeholders**, translating ambiguous asks into structured programs, and apply continuous feedback loops to refine program positioning, delivery strategy, and operations.

My approach is grounded in my **MS in Applied Organizational Psychology (USC)**, which shaped how I think about people problems as systems: I **diagnose with data, collaborate cross-functionally on solutions, and track metrics to ensure real progress.** As an **analytical organizer with a growth mindset**, **Xenium HR's** work of being the warm, reliable first point of contact for the people behind its client companies draws me in. I'd love to bring this methodology to your team.

Sincerely,

Jamie Cheng

Jamie (Yi-Chieh) Cheng
