Dear Neighborhood House Hiring Team,

I'm a Portland-based HR professional with a background in employee programs, organizational development, and cross-functional coordination—and I'm genuinely drawn to Neighborhood House's mission of building community and improving lives. This is exactly the kind of values-driven organization where I want to do my best work.

In my current role, I've built documentation and onboarding processes for 70+ staff, coordinated training programs for 600+ participants, and used data from employee listening sessions to redesign programs in real time. At Vestas Wind Systems, I supported the HRBP team directly on employee relations cases, onboarding redesign across three global locations, and an Inclusive Leadership initiative that expanded from 12 leaders to 23 sites. At Kronos Research, I drafted job descriptions, managed ATS records, and coordinated campus recruiting—giving me hands-on experience across the full recruitment cycle.

What stands out to me about this role is the breadth: recruitment, onboarding, benefits, training, employee relations, and compliance all in one seat. I thrive in that kind of generalist environment because I genuinely care about every piece of the employee experience—not just one lane of it. I'm also already familiar with ADP WorkforceNow through my HRCI coursework and professional development, which I imagine will help me get up to speed quickly.

I would love to bring this experience—and my genuine commitment to equitable, people-first HR—to Neighborhood House's team.
