Dear Lineage Hiring Team,

Human resources isn't just about administering policies—from my experience, it's about creating a continuous cycle of collecting insights, analyzing data, and refining solutions that help every team member feel supported and enable site leaders to drive real business performance. With a background in **HR, Organizational Development, and Program Management**, I have helped organizations design and implement data-informed strategies that strengthen both organizational growth and employee experience. I look forward to bringing a balanced blend of analytical and interpersonal strengths—using **partnering with site leaders, ensuring HR data accuracy and compliance, and supporting employee relations and total rewards**—to Lineage as a **Human Resources Generalist**.

As an HR Business Partner Assistant at **Vestas Wind Systems**, I enhanced operational efficiency by **identifying process gaps, streamlining workflows, and partnering with cross-functional stakeholders**. I assisted in employee relations cases, ensuring compliance with local labor laws and fostering a positive work environment. I also delivered strategic HR solutions across projects in employee relations, headcount, and succession planning—and **optimized onboarding processes across 3 global locations**, improving both efficiency and the people experience.

At **NextGen Healthcare**, I deepened my **strategic planning, data analysis, and advisory skills**. I analyzed **2,000+ employee experiences** to surface what actually drives satisfaction, and led a manager-effectiveness project that transformed employee feedback into actionable insights. My **data-driven recommendations** enabled the C-suite to prioritize essential organizational needs and develop targeted people strategies.

In my current role as a **Program Enablement Manager** at **InGenius Prep**, I lead cross-functional collaboration across partners, vendors, and internal teams—**managing 20+ programs and 10+ vendors, building guides and workflows for 70+ staff that cut onboarding time by 75%, and facilitating training webinars for 600+ participants to a 78% program enrollment rate**. I run listening sessions with **25+ global stakeholders**, translating ambiguous asks into structured programs, and apply continuous feedback loops to refine program positioning, delivery strategy, and operations.

My approach is grounded in my **MS in Applied Organizational Psychology (USC)**, which shaped how I think about people problems as systems: I **diagnose with data, collaborate cross-functionally on solutions, and track metrics to ensure real progress**. As an **analytical organizer with a growth mindset**, **Lineage's** mission to build a world-class, people-first workforce in a fast-paced, high-visibility environment draws me in. I'd love to bring this methodology to your team.

Sincerely,

Jamie Cheng

Jamie (Yi-Chieh) Cheng
