Dear Harvey Hiring Team,

Being a great People Business Partner isn't just about resolving people issues as they come—from my experience, it's about staying close enough to the business to surface themes early, coaching leaders through growth, and partnering on the people strategy that lets fast-moving teams perform. With a background spanning HRBP support, organizational development, and program management, I'm excited to bring that mix of judgment and analytical rigor to Harvey as a People Business Partner for your GTM teams.

At **Vestas Wind Systems**, I partnered directly with the HRBP team to **deliver strategic HR solutions across employee relations, headcount, and succession planning**, and assisted on **employee relations cases**—learning how to balance empathy for the individual with what's right for the team while holding compliance and confidentiality. I also helped coach 12 senior leaders through an Inclusive Leadership pilot later scaled to 23 global locations. That work taught me what it means to advise leaders, not just administer HR.

At **NextGen Healthcare**, I led a **manager-effectiveness initiative**, turning people data into reports that surfaced themes and risks for leaders, and I analyzed **2,000+ employee experiences** to share proactive insights on retention and engagement. Diagnosing early and bringing data to performance and development conversations is core to how I work.

At **InGenius Prep**, I partner cross-functionally with Sales, Marketing, and Tech leaders—coaching managers through change and refining the people programs that helped a growing team scale, reducing onboarding time by 75%. I'm comfortable in fast-moving environments where priorities shift and trust has to be earned quickly.

My approach is grounded in my **MS in Applied Organizational Psychology (USC)**: I diagnose with data, collaborate cross-functionally on solutions, and track metrics to ensure real progress. As an **analytical organizer with a growth mindset**, Harvey's mission to transform professional services—and a People team where the bar is high and judgment matters more than perfect information—are genuine draws. I'd love to partner with your GTM leaders.

Sincerely,

Jamie Cheng

Jamie (Yi-Chieh) Cheng
