Dear Scale AI Hiring Team,

Delivery isn't just about hitting a deadline—from my experience, it's about a continuous cycle of running multiple workstreams cleanly, reading the data on quality and risk, and partnering across stakeholders to escalate and solve before problems compound. With a background in program management, multi-vendor coordination, and metrics-driven execution, I'm excited to bring that scrappy, action-oriented discipline to Scale AI as an Engagement Manager.

At **InGenius Prep**, I **manage the full project lifecycle for 20+ concurrent workstreams**, from initiation through delivery and feedback. I track communications, deliverables, and follow-ups across **10+ vendors and Marketing, Tech, and Sales teams**, escalating risks with proposed solutions, and I **monitor metrics and quality against targets** to drive continuous operational improvement. Juggling many simultaneous workstreams with meticulous attention to detail is exactly what I do every day.

At **Vestas Wind Systems**, I **directed a Merger & Acquisition project**, migrating and merging employee records across systems on deadline, and streamlined immigration and relocation processes by coordinating across attorneys and internal teams—high-stakes, multi-party execution where missing a detail wasn't an option.

At **NextGen Healthcare**, I led a **manager effectiveness initiative** that translated 2,000+ responses into executive-ready insights, reinforcing my instinct to diagnose with data before driving change.

This is how I approach work—uniquely grounded in my **MS in Applied Organizational Psychology (USC)**: I diagnose with data to find where delivery is at risk, collaborate cross-functionally on solutions, and track key metrics to ensure outcomes hold. As an **analytical organizer with a growth mindset**, Scale AI's mission to build reliable AI systems for the world's most important decisions—and the chance to own client delivery end-to-end—are both genuine draws. I'd love to bring this execution discipline to your team.

Sincerely,

Jamie Cheng

Jamie (Yi-Chieh) Cheng
