Dear Cohere Hiring Team,

Recruitment coordination isn't just about keeping calendars from colliding—from my experience, it's about being the reliable connective tissue between candidates, hiring managers, and the People team, then using clear communication and good systems to make the whole process feel seamless. With a background spanning program operations, HR, and organizational development, I'm excited to bring that careful, high-touch approach to Cohere as a Recruitment Coordinator.

At **InGenius Prep**, I'm the person who keeps things running: I **coordinate logistics and scheduling for 20+ programs** across Marketing, Tech, and Sales teams, managing a high volume of moving pieces with seamless communication from start to finish, and I **keep our ATS (Greenhouse) and internal documentation accurate and up to date** with detail and organization. That ability to manage many calendars and workstreams at a demanding pace—without dropping a thread—is exactly what a Recruitment Coordinator role asks for.

At **Vestas Wind Systems**, I partnered closely across functions: I **coordinated interview schedules and communications with senior leadership** and supported onboarding and payroll-related coordination for new hires across 3 global locations, all while handling confidential information with discretion. Earlier, at **Kronos Research**, I delivered a **best-in-class candidate experience** through personalized communication—work that helped increase applications by 566% in two months. I've used Greenhouse extensively and pick up new ATS platforms quickly.

My approach is grounded in my **MS in Applied Organizational Psychology (USC)**, which trained me to treat the hiring process as a system: I diagnose with data where things slow down, collaborate cross-functionally on the fix, and track results to make sure they hold. As an **analytical organizer with a growth mindset**, Cohere's mission to scale intelligence to serve humanity—and the chance to support a fast-moving Talent and People team—are both genuine draws. I'd love to bring this approach to your recruiting team.

Sincerely,

Jamie Cheng

Jamie (Yi-Chieh) Cheng
