Dear Trend Hiring Team,

Workplace culture isn't just about **perks and events**—from my experience, it's about creating a continuous cycle of collecting insights, analyzing data, and refining solutions that **make every team member feel valued, connected, and empowered to grow**. With a background in **HR, Organizational Development, and Program Management**, I have helped organizations design and implement data-informed strategies that strengthen both organizational growth and **employee experience**. I look forward to bringing a balanced blend of analytical and interpersonal strengths—using **event and program coordination, company-wide communications, and stakeholder collaboration**—to Trend as a **Workplace & Culture Coordinator**.

As an HR Business Partner Assistant at **Vestas Wind Systems**, I enhanced operational efficiency by **identifying process gaps, streamlining workflows, and partnering with cross-functional stakeholders**. I also strengthened engagement through an **HR newsletter** and **award-winning well-being initiatives** recognized among 1,000+ competitors, and supported the HRBP team in piloting an Inclusive Leadership workshop later scaled to 23 global locations. Through stakeholder interviews, I clarified ambiguous job responsibilities and **optimized onboarding processes across 3 global locations**, improving both efficiency and the people experience.

At **NextGen Healthcare**, I deepened my **strategic planning, data analysis, and advisory skills**. I initiated a manager-effectiveness project that transformed employee feedback into actionable insights, and **analyzed 2,000+ employee experiences** to surface what actually drives satisfaction. My initiative and **data-driven recommendations** enabled the C-suite to prioritize essential organizational needs and develop targeted **people** strategies.

In my current role as a **Program Enablement Manager** at **InGenius Prep**, I lead cross-functional collaboration across partners, vendors, and internal teams—**managing 20+ programs and 10+ vendors, building guides and workflows for 70+ staff that cut onboarding time by 75%, and facilitating training webinars and company-wide sessions for 600+ participants to a 78% program enrollment rate**. I run needs assessments with **25+ global stakeholders**, translating ambiguous asks into structured programs, and apply continuous feedback loops to refine program positioning, delivery strategy, and operations.

My approach is grounded in my **MS in Applied Organizational Psychology (USC)**, which shaped how I think about people problems as systems: I **diagnose with data, collaborate cross-functionally on solutions, and track metrics to ensure real progress**. As an **analytical organizer with a growth mindset**, **Trend's** commitment to a workplace where team members can thrive, grow, and make a difference draws me in. I'd love to bring this methodology to your team.

Sincerely,

Jamie Cheng

Jamie (Yi-Chieh) Cheng
