Dear Family Resource Home Care Hiring Team,

Human resources isn't just about **policies and paperwork**—from my experience, it's about creating a continuous cycle of collecting insights, analyzing data, and refining solutions that **keep employees supported and the organization compliant**. With a background in **HR, Organizational Development, and Program Management**, I have helped organizations design and implement data-informed strategies that strengthen both organizational growth and **the employee experience**. I look forward to bringing a balanced blend of analytical and interpersonal strengths—using **conflict resolution and employee relations, policy interpretation, and analytical problem-solving**—to **Family Resource Home Care** as an **HR Generalist**.

As an HR Business Partner Assistant at **Vestas Wind Systems**, I enhanced operational efficiency by **identifying process gaps, streamlining workflows, and partnering with cross-functional stakeholders**. Through stakeholder interviews, I clarified ambiguous job responsibilities and **optimized onboarding processes across 3 global locations**, improving both efficiency and the people experience. I also **assisted in employee relations cases**, ensuring compliance with local labor laws, and overseeing the integration of an acquired company during an **M&A project** further demonstrated my ability to manage organizational change and keep cross-functional teams aligned.

At **NextGen Healthcare**, I deepened my **strategic planning, data analysis, and advisory skills**. I initiated a manager-effectiveness project that transformed employee feedback into actionable insights, and **analyzed 2,000+ employee experiences** to surface what actually drives satisfaction. My initiative and **data-driven recommendations** enabled the C-suite to prioritize essential organizational needs and develop targeted people strategies.

In my current role as a **Program Enablement Manager** at **InGenius Prep**, I lead cross-functional collaboration across partners, vendors, and internal teams—**managing 20+ programs and 10+ vendors, building guides and workflows for 70+ staff that cut onboarding time by 75%, and facilitating training webinars for 600+ participants to a 78% program enrollment rate**. I run needs assessments with **25+ global stakeholders**, translating ambiguous asks into structured programs, and apply continuous feedback loops to refine program positioning, delivery strategy, and operations. More recently, through **ODN Oregon**, I've upskilled an HR team to audit 300+ leave cases and present executive-ready insights on **\$362K in leave costs**—work that directly informed policy redesign.

My approach is grounded in my **MS in Applied Organizational Psychology (USC)**, which shaped how I think about people problems as systems: I **diagnose with data, collaborate cross-functionally on solutions, and track metrics to ensure real progress**. As an **analytical organizer with a growth mindset**, **Family Resource Home Care's** mission to deliver compassionate in-home care—supported by an HR team that keeps caregivers and field staff thriving—draws me in. I'd love to bring this methodology to your team.

Sincerely,

Jamie Cheng
