Dear Vercel Hiring Team,

Employee experience isn't just about perks and events—from my experience, it's about creating a continuous cycle of collecting insights, analyzing data, and refining solutions that keep **clean data, fast turnaround, and a smooth employee experience** at the center of every lifecycle moment. With a background in **HR, Organizational Development, and Program Management**, I have helped organizations design and implement data-informed strategies that strengthen both organizational growth and **employee experience**. I look forward to bringing a balanced blend of analytical and interpersonal strengths—using **People Operations, HR data accuracy and reporting, and process improvement**—to **Vercel** as a **People Operations Analyst**.

As an HR Business Partner Assistant at **Vestas Wind Systems**, I enhanced operational efficiency by **identifying process gaps, streamlining workflows, and partnering with cross-functional stakeholders**. Through stakeholder interviews, I clarified ambiguous job responsibilities and **optimized onboarding processes across 3 global locations**, improving both efficiency and the people experience. Overseeing the integration of an acquired company during an **M&A project** further demonstrated my ability to manage organizational change and keep cross-functional teams aligned.

At **NextGen Healthcare**, I deepened my **strategic planning, data analysis, and advisory skills**. I initiated a manager-effectiveness project that transformed employee feedback into actionable insights, and **analyzed 2,000+ employee experiences** to surface what actually drives satisfaction. My initiative and **data-driven recommendations** enabled the C-suite to prioritize essential organizational needs and develop targeted **people** strategies.

In my current role as a **Program Enablement Manager** at **InGenius Prep**, I lead cross-functional collaboration across partners, vendors, and internal teams—**managing 20+ programs and 10+ vendors, building guides and workflows for 70+ staff that cut onboarding time by 75%, and facilitating training webinars for 600+ participants to a 78% program enrollment rate**. I run needs assessments with **25+ global stakeholders**, translating ambiguous asks into structured programs, and apply continuous feedback loops to refine program positioning, delivery strategy, and operations.

My approach is grounded in my **MS in Applied Organizational Psychology (USC)**, which shaped how I think about people problems as systems: I **diagnose with data, collaborate cross-functionally on solutions, and track metrics to ensure real progress**. As an **analytical organizer with a growth mindset**, **Vercel's** mission to keep employees genuinely supported through clean, reliable People Operations draws me in. I'd love to bring this methodology to your team.

Sincerely,

Jamie Cheng
