Dear RRD Hiring Team,

Strong workplace culture programs depend just as much on the operational details—the calendars, the data, the steady coordination across stakeholders—as on the strategy behind them. With a background in **HR, Organizational Development, and Program Management**, I've helped organizations keep people programs running smoothly by translating ambiguous priorities into clear systems and data-driven insights. I look forward to bringing my strength in **program coordination, data tracking, and stakeholder collaboration** to RRD as a Workplace Culture & Belonging Analyst.

As an HR Business Partner Assistant at Vestas, I enhanced operational efficiency by **identifying process gaps, streamlining workflows, and facilitating cross-functional stakeholder alignment**. Through stakeholder interviews, I clarified ambiguous job responsibilities and standardized global onboarding processes, improving both efficiency and the people experience. Overseeing the integration of an acquired company during an M&A project further demonstrated my ability to manage organizational change and keep cross-functional teams aligned.

At NextGen Healthcare, I deepened my **strategic planning, data analysis, and advisory skills**. I initiated a manager effectiveness project that transformed employee feedback into actionable insights. Through my research and presentation, I identified manager training as a key driver of employee engagement. My initiative and **data-driven recommendations** enabled the C-suite to prioritize essential organizational needs and develop targeted people strategies.

In my current role as a **Program Manager**, I lead cross-functional collaboration across partners, vendors, and internal teams to **launch people programs, build digital resources, and drive adoption across a distributed workforce**. I apply continuous improvement via feedback loops to optimize communications and program delivery—contributing to a 78% program enrollment rate across 600+ participants. I've also conducted needs assessments with 25 global stakeholders, translating ambiguous asks into 3 structured programs aligned with strategic objectives.

I would welcome the chance to bring my skills in **program strategy, stakeholder engagement, and data-driven decision-making** to your Workplace Culture & Belonging team. Thank you for considering my application—I look forward to discussing how I can best contribute to RRD!

Sincerely,

Jamie Cheng

Jamie (Yi-Chieh) Cheng
