Dear Nielsen Hiring Team,

Change management isn't just about rolling out new tools and sending announcements—from my experience, it's about creating a continuous cycle of collecting insights, analyzing data, and refining solutions that help people genuinely adopt and sustain new ways of working. With a background in **HR, Organizational Development, and Program Management**, I have helped organizations design and implement data-informed strategies that strengthen both organizational growth and **stakeholder readiness**. I look forward to bringing a balanced blend of analytical and interpersonal strengths—using **stakeholder engagement, communications planning, and feedback analysis**—to Nielsen as a **Change Management Specialist**.

As an HR Business Partner Assistant at **Vestas Wind Systems**, I enhanced operational efficiency by **identifying process gaps, streamlining workflows, and partnering with cross-functional stakeholders**. Through stakeholder interviews, I clarified ambiguous job responsibilities and **optimized onboarding processes across 3 global locations**, improving both efficiency and the people experience. Overseeing the integration of an acquired company during an **M&A project** further demonstrated my ability to manage organizational change and keep cross-functional teams aligned.

In my consulting work at **Organization Development Network (ODN) Oregon**, I applied a diagnostic change approach with an NGO leadership team—running **focus groups and 1:1 semi-structured interviews** to surface decision-making and accountability gaps. I analyzed qualitative data to identify themes around process ambiguity and cross-functional misalignment, then challenged the team to redesign their accountability structures. This mirrors exactly how I'd approach change readiness at Nielsen: listen first, diagnose the real gaps, then design targeted interventions.

In my current role as a **Program Enablement Manager** at **InGenius Prep**, I lead cross-functional collaboration across partners, vendors, and internal teams—**managing 20+ programs and 10+ vendors, building guides and workflows for 70+ staff that cut onboarding time by 75%, and facilitating training webinars for 600+ participants to a 78% program enrollment rate**. I run needs assessments with **25+ global stakeholders**, translating ambiguous asks into structured programs, and apply continuous feedback loops to refine program positioning, delivery strategy, and operations.

My approach is grounded in my **MS in Applied Organizational Psychology (USC)**, which shaped how I think about people problems as systems: I **diagnose with data, collaborate cross-functionally on solutions, and track metrics to ensure real progress**. As an **analytical organizer with a growth mindset**, Nielsen's mission to help organizations navigate transformation through evidence-based change draws me in. I'd love to bring this methodology to your team.

Sincerely,

Jamie Cheng

Jamie (Yi-Chieh) Cheng
